

A photograph of a classroom. In the foreground, a stack of five books (blue, yellow, orange, white, and blue) sits on a wooden desk. Below the desk, a green metal chair with a blue backpack hanging on its back is visible. The background shows other desks and chairs in a bright, sunlit room.

INTRODUCING OUR EDUCATION SERVICES

Your academic furniture
and interiors partner.

ENABLING LEARNING ENVIRONMENTS

Spaces designed to support children's development and learning by providing a safe, stimulating, and engaging atmosphere. These environments prioritise a child's natural curiosity and desire to explore, offering opportunities for choice, exploration, and risk-taking.

metric

METRIC, YOUR EDUCATION EXPERTS

Since 1970, Metric has been a pioneer in creating learning spaces. With over five decades of expertise in design, supply, and installation, we are dedicated to crafting environments that foster a culture of learning. We take pride in our customer-focused approach and meticulous attention to detail.

BRINGING A WEALTH OF KNOWLEDGE

Furniture plays a crucial role in shaping our emotions and productivity. Our talented team of designers and consultants bring a wealth of knowledge in teaching environments, furniture applications, regulations, and inspiring interior design. We engage with schools nationwide.

DESIGN & SPACE PLANNING

The collage features a variety of design and space planning elements:

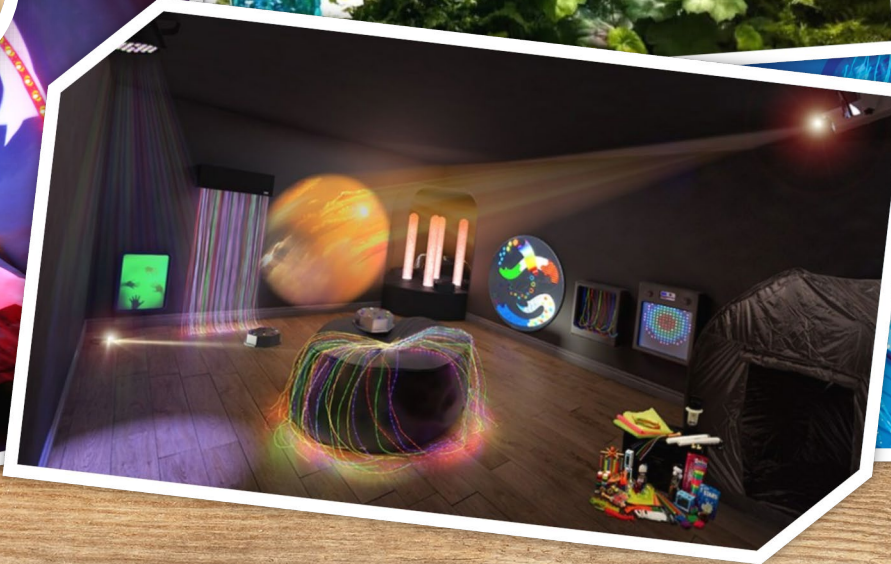

- Architectural Sketches:** Hand-drawn sketches showing interior layouts, furniture placement, and lighting designs. One sketch includes the text "Wings - Playhouse" and "Long w/long stairs".
- 3D Renderings:** Digital visualizations of interior spaces, including a large open-plan area with colorful seating and a room with a large map on the wall.
- Photographs:** Real-world images of modern interior spaces, such as a lounge with blue and yellow seating, a room with a large map, and a room with a large wooden table and chairs.

SENSORY & WELLBEING

GENERAL EDUCATION FURNITURE

STANDARDS

We make all our products with comfort and durability in mind. We know that school furniture needs to support children, improve their posture, and endure the demanding environments of classrooms.

Designed for Classrooms

Our furniture is designed to suit various classroom environments. Our seating comes in a range of sizes and colours and is strong and durable yet light weight for easy moveability to create stimulating classrooms.

Ergonomics

Our seating ranges have ergonomically designed back angles to promote a positive S shaped spine, which reduces the risk of lower back pain. The chairs are produced in a range of sizes to best accommodate children of all ages.

ISO 9001 - Quality Control

We comply with ISO 9001 quality control standards which ensures our products and services are of the highest possible quality. This provides you with complete peace of mind during the ordering process and product life-cycle.

Strength

Our furniture range is constructed to be ultra-strong and withstand the toughest classroom environments. Metric products are built using high durable polypropylene and super strong steel.

STANDARDS

Our furniture is constructed to be ultra-strong so that it can withstand high impacts while still being easy to maintain.

Safety

Designed for the needs of the classroom, our products are anti-tamper and low maintenance. There are no sharp edges on any of our products and most of our chairs have no pinch points and many also have anti-tilt legs.

Longevity

We are very confident in the quality of our products. That is why our entire range comes with extensive guarantees which protect you against the unlikely event of product failure.

Sustainable & ISO14001 Accredited

We are committed to providing environmentally friendly and sustainable products. All of our metal and plastic can be recycled to help you meet your own sustainability targets.

Tested & FSC Approved

Our products are tested to conform to the latest British Standards for ergonomics, strength and stability. Any wood product is FSC tree tick approved, which ensures the process of making it is environmentally appropriate.
